Hubert Farnsworth

May 2024

We have now added a title, author and date to our first L<sup>A</sup>T<sub>E</sub>X document!  
Some of the **greatest** discoveries in science were made by ***accident***.  
Some of the greatest *discoveries* in science were made by accident.  
*Some of the greatest discoveries in science were made by accident.*

Figure 3: a nice plot  
As you can see in the figure 3, the function grows near 0. Also, in the page 7 is the same example.

Figure 1: a nice plot

As you can see in the figure ??, the function grows near 0. Also, in the page ?? is the same example.

Some of the greatest *discoveries* in science were made by accident.

There's a picture from this is  
pc.

- The individual entries are indicated with a black dot, a so-called bullet.
- The text in the entries may be of any length.

1. This is first entry in our list
2. This list numbers increase with each entry we add

In physics, the mass-energy equivalence is stated by the equation  $E = mc^2$ , discovered in 1905 by Albert Einstein.

The mass-energy equivalence is stated by the equation

$$E = mc^2$$

discovered in 1905 by Albert Einstein.

In natural units ( $c = 1$ ), the formula expresses the identity

$$E = m \tag{1}$$
